

## User Experience Designer

ES3™ is a leading global competitor in the development of interactive television applications. With high profile partners and clients, its fast paced and challenging environment provides for a fulfilling career.

We are a close knit team, looking for a dynamic, determined, and positive individual to contribute their talents towards our exciting product development initiatives.

Specifically, we are hiring for a User Experience Designer with a strong understanding of usability across various media platforms: TV, mobile, web and desktop applications.

### About the Job

The selected individual will be responsible for the following:

- Working directly with the User Experience Manager
- Working in collaboration with the software engineers
- Usability and design documentation
- Graphic and usability design for TV (primarily), mobile, web and desktop application interfaces
- Clean and optimized development of client side code

### Experience

“There is no substitute for experience”

– Proverb

- At least 5 years in the new media industry as a graphic designer
- Design experience for iTV and/or television broadcast is a must
- A STRONG understanding of human user interaction and interfaces through multiple devices such as PC, Mobile and most importantly TV
- Involvement in focus group studies
- Extensive understanding of quality user experience
- Ability to identify risks and provide solutions for mitigation
- Excellent written and verbal communication skills
- Excellent time management skills

## Technical Skills

“Technical skills is mastery of complexity, while creativity is mastery of simplicity”

– Erik Christopher Zeeman

- Photoshop and Illustrator (senior)
- Ability to design for embedded devices (limited headroom)
- Ability to design for alternative HID inputs (i.e. IR remote)
- Microsoft Visual Studio 2008
- Microsoft Expressions Studio (Silverlight)
- Flash and ActionScript (intermediate)
- XHTML/CSS (intermediate)
- JavaScript/AJAX (intermediate)

## Qualifications

- Able to communicate clearly and effectively in multiple languages is an asset
- Strong ability to handle multiple priorities, work under pressure and meet stringent deadlines
- Ability to work independently and in a team as and when required
- Accuracy and attention to detail are essential
- Sound judgment and problems solving ability
- Professional tact is essential
